SOFTWARE ENGINEER

Results-driven Software Engineer with expertise in building high-performance web and mobile applications. Experienced in frontend and backend development, API integration, and delivering seamless and efficient solutions that enhance user experience.

SUMMARY

- **3.1+ years** of experience in **Software Development (C#.Net Core/React)**.
- **BE** from, Savitribai Phule Pune University (MH).
- Currently associated with **Infoaim Solution Pvt. Ltd.**, Pune, as a **Software Engineer**.
- Significant experience in ASP.NET, MVC.Net Core, WEB API, SQL Server, React, React Native, JavaScript, JQuery, Angular Js, GIT,
- Worked On Travel & Expense Management, ERP, API, and Mobile App development projects.
- Proven ability to work effectively in both independent and team situations.

PROFESSIONAL EXPERIENCE

Infoaim Solution Pvt. Ltd.
Software Engineer

March 2022 - Present

Accomplishments:

- Development of Web Applications and WEB API.
- Handling Websites and Database.
- Maintenance of existing Projects.
- Integrate and Deploy applications into a production environment.
- Engineered multiple cross-platform mobile applications using React Native, React and Redux.
- Published the app to the Play Store and managed subsequent updates.
- API Development and Integration .

SKILLS

Technologies :	.Net core, MVC, Web API, ASP.NET(C#), EF, JQuery
Languages :	C#, JavaScript
Databases :	SQL Server, PostgreSQL
Operating Systems :	Windows, Mac
Framework/Library :	React, React Native, AngularJs
Api Testing platform :	Postman, Swagger
Cloud :	Azure (Familiar)

PROJECTS

ERP System

- Designed dynamic forms and data displays, boosting user efficiency by 30%. Created optimized database tables, reducing query time by 25%.
- Contributed to full-stack development for seamless functionality. Deployed updates, ensuring stable operations and bug fixes.

VT Pumps

- Engineered a cost calculation system for vertical turbine pumps, ensuring accuracy and reliability in calculations.
- Architected and optimized database structures, enhancing data retrieval performance by 30%.
- Led backend development and collaborated on front-end development to ensure a seamless user interface.

iScout

- Engineered a hybrid app for employee tracking, live geolocation, geofencing, and attendance.
- Integrated push notifications, geofencing logic, and location plugins for real-time updates.
- Optimized performance with virtualized lists, async storage (Redux Persist), and memorization techniques.

TEMS

- Developed and optimized report modules for streamlined travel planning, expense tracking, and reimbursements.
- Enhanced data visibility features, improving accessibility and usability of critical information across the platform.

WhatsApp Bot with Endpoint

- Developed structured WhatsApp flows and message templates to enhance user interaction and streamline communication.
- Implemented API endpoints for real-time complaint tracking and automated notifications, streamlining user engagement and enhancing operational efficiency.

i-Travel

- Reengineered the user interface to enhance usability and simplify employee expense and check-in/check-out management.
- Streamlined app performance through optimization of system resources and response times.

EDUCATION

Bachelor of Engineering (Computer Engineering)

Savitribai Phule Pune University (MH) with 9.98 SGPA
